crystal collection

ZODIAC *London*

THE CRYSTAL GENESIS:

From inspiration to collection launch, the creative process behind each piece embodies the refined craftsmanship of our artisans and their commitment to continuously improve the crystal-making tradition. It's time to share our secrets to creating a captivatingly lustrous crystal piece.

This is in fact a two-step process. First, a molten mixture of glass and lead oxide, added for its decorative properties, durability and refractive effect is marvered and blown into the desired shape. When it cools down, the glass crystal is cut and finished using the same high-precision technique in which diamonds are cut to create beautiful, enchanting crystal facets.

ZODIAC *London*

Introducing the premium Diamond Crystal Collection, an exquisite addition to your home decor. The iconic diamond facets in the hand-blown crystal silhouette exude the perfect amount of sparkle to accentuate its matching metal elements, available in a variety of finishes including 24-karat gold plating.

Dimensions are as follows:

Large jars/brush holders:

ø78x125h

Small jars/brush holders:

ø78x100h

Large soap dispensers:

ø78x200h

Small soap dispensers:

ø78x185h

Toilet brushes:

ø100x250/435h

Soap dishes:

ø120x50h

Vases:

ø45/205h

Bins:

ø195x230h

The image features a dark brown background with a complex, low-poly geometric pattern. The pattern consists of numerous triangles of varying sizes and orientations, creating a faceted, crystalline effect. Interspersed throughout this pattern are small, bright gold starburst or lens flare accents, which add a sense of depth and luxury. In the center of the image, the word "ZODIAC" is written in a bold, gold, serif font. The letter "Z" is particularly stylized, with a circular cutout in its center. To the right of "ZODIAC", the word "London" is written in a smaller, elegant, gold cursive script font. The overall aesthetic is sophisticated and high-end, typical of a luxury brand's branding.
